

Welcome to YOUNG LIVING!

You've joined the global movement to empower the world with nature's living energy: essential oils. People everywhere are searching for ways to create healthier homes and a healthier world. They want to ditch the status quo, the toxic lifestyles, and the products with synthetic "mystery" ingredients. We're thrilled to invite you to not only discover the power of nature's pure living energy for yourself but to also share it with others. Together we can all shrink our toxin footprint, live healthier lives, and leave behind a better planet for our loved ones.

Young Living's commitment is to offer everyone, everywhere, the opportunity to live with purpose and wellness. People can live freer lives when they feel well and have peace of mind. Young Living delivers that wellness and peace of mind with our pure, natural solutions. This is an exciting time of growth for our movement as more people are looking for a life free of toxins and products they can trust; a life where they don't have to compromise on what they bring into their homes.

As the original essential oils company and the standard-bearer for this global movement, we've built a community dedicated to providing

the purest essential oils. The beating heart of this community is our proprietary Seed to Seal quality commitment and its three pillars: Sourcing, Science, and Standards. We invite you to visit our corporate-owned or partner farms throughout the world for a firsthand look at our passion for quality.

This Product Guide represents a decades-long dedication to helping others find freedom in whole-life wellness and toxin-free living. All of us at Young Living have made a tremendous effort to offer safe and effective oils and natural, oil-infused products to replace the harsh chemicals found in many homes. The Product Guide gathers these essential products into one place, so you can quickly find what you're looking for and discover new favorites you haven't tried yet.

Our products are here to empower you as you create an oasis of freedom and well-being. This is your moment to experience the benefits of nature's living energy and to learn how this energy can touch and enhance every part of your life. We invite you to read on and discover your new favorites. Thank you for joining us and bringing your passion to our community.

OUR PURPOSE

WHO WE ARE

We are distillers and dreamers, creators and caretakers, farmers and family. We uplift and enhance lives around the world through nature's living energy—essential oils.

As the pioneers of the modern essential oils movement for more than 25 years, we have established and maintained the standard every step of the way. From our sustainable farming and sourcing practices to our cutting-edge research and testing, we consistently deliver the world's purest essential oils and oil-infused products.

As the standard-bearer, we leave contentment and complacency to others and have no time for standing still or the status quo. Every day we make lives better, the earth greener, and futures brighter.

We are Young Living: Nature distilled. Life enhanced.

QUALITY

PURE, POTENT PRODUCTS

For over 25 years, we've defined what it means to deliver the purest, most potent oils possible. That purity relies on our Seed to Seal® quality commitment; our global family of corporate-owned farms, partner farms, and Seed to Seal-certified suppliers; our stringent product testing at every point; and our certifications, which guarantee that our essential oils arrive in your home using the most responsible, sustainable methods. Check out the back of this Product Guide and SeedtoSeal.com for more information.

PROTECTING THE PLANET

Our planet takes care of us and provides all we need. We return the favor by working to leave behind a healthier world through recycling, waste cutting, and carbon reduction. As the standard-bearer for the modern essential oils movement, Young Living takes extraordinary steps to reduce our impact, avoiding the easy path, and provide other companies with an example to follow. As we help you reduce your toxin footprint, we also work to eliminate our own.

PHILANTHROPY

PROVIDING A HAND UP SINCE 2009

The D. Gary Young, Young Living Foundation believes that empowerment is the key to longlasting, sustainable change. Over the years we've seen children overcome barriers to attend college and girls escape the shadows of exploitation and become leaders of their own lives.

WHERE WE WORK

We are committed to leaving the world better than we found it, which is why we have supported organizations and projects on every continent. In 2019 alone we linked arms with 89 non-profit organizations and operated three Foundation-owned projects that positively changed 220,129 lives through funding, Young Living product donations, and volunteer hours. Our impact is propelled by the donations of people like you who are committed to empowering the dreams of communities around the world. We believe that together we can continue to accelerate good and change lives for good.

THE 100 PERCENT PROMISE

Our initiatives are supported by a 100 percent promise. Because Young Living generously covers the Foundation's administrative costs, 100 percent of every donation provides a direct impact. Every penny of every dollar contributed goes to lifting up those in need, every time.

HOW TO GET INVOLVED

Together, we are an incredible force for good, which is why we offer many ways to get involved and stay up to date with the work the Foundation is doing. Follow us across your favorite social media platforms and visit our blog for the most up-to-date stories of impact. Host a Foundation-themed party for your team, shop AmazonSmile, or start a fundraiser. Whether you can join us on a service trip or want to change lives right where you are, we need passionate people everywhere to spread awareness online and in their own neighborhoods.

HOW TO USE ESSENTIAL OILS

Aromatically

Use essential oils aromatically to uplift the spirit.

- Rub 2–3 drops of essential oil between your palms and inhale.
- Add a few drops of essential oil to a bowl of hot water. Cover your head and bowl with a towel. Breathe deeply and slowly.
- Use your favorite essential oils in our diffusers.

Topically

Many essential oils are safe and beneficial to use directly on the skin.

 Place 2–3 drops of essential oil directly on the desired area and massage in. Repeat as desired. Always follow the label's dilution instructions.

CAUTION: Essential oils are very potent and may be irritating to the skin. If irritation occurs, apply Young Living's V-6™ Vegetable Oil Complex or any pure plant-based oil to the area to dilute. Citrus essential oils and blends may cause photosensitivity. Avoid direct sunlight or UV rays for up to 12 hours after applying them.

SEED TO SEAL

OUR QUALITY COMMITMENT

SOURCING

Quality products come from quality sources. That's why we work exclusively with Young Living corporate-owned farms, partner farms, and Seed to Seal-certified suppliers around the globe, so we can source conscientiously and prioritize quality as well as community and ecological impact. Our sourcing philosophy means that you never have to choose between quality and conscience.

SCIENCE

Purity starts in the field, but it's proven in the lab—two in-house labs and more than a dozen leading independent labs, to be exact. Every batch of Young Living essential oil undergoes advanced purity and efficacy testing and retesting by the 50+ highly trained scientists at our D. Gary Young Research Institute. Products that aren't pure enough or powerful enough—or that simply aren't perfect—never make it to your home.

STANDARDS

Our decades of leadership mean that we're responsible for setting—and surpassing—the definitive green standard for others to follow. This requires rigorous commitment to environment standards that put people and the planet over profits. We proactively design, evaluate, and regulate our process to ensure we do things the right way.

The Young Living Lavender Farm and Distillery is an iconic lavender farm, not only for Young Living but also to the essential oils movement and the wellness community. This farm strives to improve its green efforts and sustainability. A recent redesign of the farm's distillery created a closed-loop system that saves approximately 260 million gallons of water a year. Only a short drive from Young Living Global Headquarters, this lavender farm is home to events such as the Lavender Day Festival and the Fall Festival and Draft Horse Show and Rodeo. It is also a center for innovative new distilling methods.

OILS FROM THIS FARM:

Skyrider Wilderness Ranch

Tabiona, Utah, USA

The Skyrider Wilderness Ranch—nestled in the hills of Tabiona, Utah, and home to stunning vistas and wildlife—held a special place in Gary Young's heart. The ranch occupies 15 square miles in one of the largest pinyon pine forests in the world. It's home to 8–12 beehive colonies that pollinate the plants and help maintain a healthy ecosystem. The farm is also a waystation for beautiful monarch butterflies, where they can rest and feed during their migration between Canada and the Yucatan.

Tabiona, Utah, USA

This location is an addition to our Tabiona ranch family. Located near Young Living's Skyrider Wilderness Ranch, this ranch grows many botanicals for essential oil research. It's also the location of the D. Gary Young Wildlife Sanctuary, an 11,597-acre conservation easement Young Living donated to The Nature Conservancy. The sanctuary serves as a migratory corridor nicknamed the Utah Serengeti, due to the large herds of elk and deer that migrate between their summer and winter ranges. The easement includes seven miles of the Duchesne River, two mountain ranges, and sage brush habitat that provides a haven for endangered greater sage-grouse.

St. Maries Lavender Farm and Distillery

St. Maries, Idaho, USA

The St. Maries Lavender Farm and Distillery is where the Young Living farm family got its start. Young Living Founder D. Gary Young brought authentic, unhybridized lavender and melissa seeds from France and planted them on this beautiful 200-acre farm. Years later, when viral and fungal blights threatened France's lavender crop, Gary carried seeds from the St. Maries farm to share with lavender farmers in France, helping to re-establish true lavender.

OILS FROM THIS FARM: Lavender • Melissa • Goldenrod

Vida De Seville Distillery

Almaden de la Plata, Seville, Spain

Located less than an hour from the city of Seville, this distillery crafts some of our most-beloved essential oils. The distillery puts passion and craft into the process, including distilling Cistus oil from handpicked, wildcrafted plants that grow in the Sierra Norte Nature Park. The distillation process and zero-waste practices further our efforts to sustain the land and produce the highest-quality products straight from nature.

OILS FROM THIS FARM: Cistus • Frankincense • Myrrh

Labbeemint Partner Distillery

White Swan, Washington, USA

Founded by Jack Labbee in the early 1940s, the Labbeemint Partner Distillery started out as a small, family-run facility and grew to become the premier peppermint and spearmint provider for the oral care, confectionary, flavor, fragrance, and aromatherapy industries. With four strategic locations that include a distillery at its main location in Washington and warehouses in other locations, Labbeemint provides a scalable, sustainable mint source. The farm is still family run and maintains a level of unmatched supply chain honesty and transparency that makes it the ideal mint supplier for Young Living.

OILS FROM THIS FARM: Peppermint • Spearmint

Kona Sandalwood Reforestation Project

Big Island, Hawaii, USA

The Kona Sandalwood Reforestation Project is a great example of how our farm partnerships strive to preserve cultural values. At this location, only dead or dying sandalwood is harvested to maintain the ecological balance and to follow the deeply rooted Hawaiian belief in humanity's responsibility to maintain a respectful relationship with the land.

OIL FROM THIS FARM: Royal Hawaiian Sandalwood*

Building this farm and its state-of-the-art distillery started as one of Gary Young's passion projects. Today Chongon's tropical climate helps nurture the farm's 2,000 acres of rich soil, year-round harvests, and lush botanical life. To protect the crops, part of the farm's biomass is composted with manure and given to worms. The worms eat the compost and transform it into worm humus, which provides higher saturation of addition nutrients into the soil.

Dalmatia's striking landscape is home to a rich history, as well as the highly specific conditions required to grow helichrysum. Helichrysum is one of those rare plants that doesn't require crop rotation since it takes its nutrients from the calcium carbonate found in rocks, not from the soil. That's why this farm was established: to be a sustainable source for our popular Helichrysum oil. It has since continued to grow and cultivate even more botanicals, protecting helichrysum and other plants growing in the wild.

Amanzi Amahle Cooperative Farm and Distillery

KwaZulu-Natal, South Africa

The Amanzi Amahle Cooperative Farm and Distillery works with local growers throughout the region to produce some of Young Living's most popular essential oils. This partnership provides the valuable resources smaller farms need to produce high-quality essential oils, while also dedicating efforts to the conscientious treatment of people, land, and resources. For example, in 2019 Young Living helped fund a mobile distillery that allowed the farm to distill on-site. The D. Gary Young, Young Living Foundation also worked with the farm to locate land for a community plot that will generate funds to purchase school transportation for local children.

Ord River Sandalwood Farm and Distillery

Kununurra, Australia

While this farm is headquartered in Perth, the sandalwood plantations extend across Australia's tropical northern outback, and the distillery is located south in Albany. The Ord River Sandalwood Farm and Distillery developed its own seed orchards, which allow for continual improvement of the seed stock. The farm is the world's largest sandalwood distillery and for its water conservation efforts—the farm has recycled over 3 million liters (roughly 792,516 gallons) of water since 2010—has received the prestigious Champion Award from the Western AU Water Corp.

OIL FROM THIS FARM: Sacred Sandalwood

Taiwan Cooperative Farm And Distillery

Taitung, Taiwan

With a coastline and mountains over 14,000 feet high (4,260 meters), Taiwan is home to diverse microclimates, giving the island a rich range of biodiversity. Similarly, the cooperative farm and distillery is made up of smaller individual farm operations that focus on different oils, including the oil harvested from hong kuai—the Taiwan red cypress. The farms seek to nurture and restore much of Taiwan's unique plant life after a century of deforestation and depletion.

OILS FROM THIS FARM: Jade Lemon • Hong Kuai • Xiang Mao • Camphor Wood

Finca Victoria Farm

Ciudad Victoria, Tamaulipas, Mexico

The Finca Victoria Farm comprises 2,400 acres of rich farmland, with 50 groves of hand-tended fruit trees. Fresh lime and grapefruit rinds are cold pressed to produce essential oils of the highest quality. Because this farm is a zero-waste facility, every remaining part of the fruit is put to good use.

OILS FROM THIS FARM: Grapefruit • Lime

Outback Botanical Reserve and Distillery

Darwin, Australia

Australia's Northern Territory outback is the backdrop for this location's plantation of Australian cypress trees. The Outback Botanical Reserve and Distillery drew upon ethnobotanical use in aboriginal practices to discover a new, now-patented method of distillation that resulted in Blue Cypress essential oil. In 2007 Gary Young reached out about this discovery. Young Living provided the funds for the distillery, establishing one of our earliest partnerships.

OIL FROM THIS FARM: Blue Cypress

Happy Pili Tree Farm and Distillery

Bicol Region, Philippines

Chosen as a partner farm because of its ethical and conscientious harvesting methods, the Happy Pili Tree Farm and Distillery is Young Living's main supplier of Elemi essential oil. With expertise in legally and sustainably sourcing this precious plant and providing fair wages to workers, the farm protects natural resources and helps ensure long-term viability of high-quality Elemi essential oil. The farm has also vertically integrated the production process by building a distillery on-site, as well as by keeping job opportunities and expertise within the community.

OIL FROM THIS FARM: Elemi

Arabian Frankincense Distillery

Young Living is the first company in the world to distill and export Omani Sacred Frankincense oil and bring it to the Western world. Gary and Mary Young traveled to Oman in 1995 and learned the rich history of the Boswellia sacra trees that had been harvested there over the past 5,000 years. Gary was determined to build a distillery there and enlisted the help of Dr. Mahmoud Suhail, who used his special relationship with frankincense growers and harvesters to help Young Living offer Sacred Frankincense oil to the world.

Young Living's Simiane-la-Rotonde Lavender Farm and Distillery is located in charming Provence, a region of France renowned for its beauty, fragrant lavender fields, and summer-long festivals. Keeping with our innovative sustainability initiatives and quest for pure, unadulterated oils, the farm uses sheep to weed its fields. Sheep prefer the leafy forbs that include most species of weed, leaving the essential oil-producing plants unharmed.

Northern Lights Farm and Distillery

Fort Nelson, British Columbia, Canada

After extensive scouting and research in 2014, Young Living purchased land in British Columbia, Canada, for the Northern Lights Farm and Distillery. Northern Lights serves as a main source of Black Spruce essential oil, an important oil in many popular blends. Ever mindful of the care it takes to preserve and protect these beautiful forests, the Northern Lights farm obtained a horticulture license and coordinated with local governments to manage the nearby forests. By thinning out old and dying trees, the farm enables surviving trees to grow and thrive.

OIL FROM THIS FARM: Northern Lights Black Spruce

Mera Ocotea Farm

Pastaza Province, Ecuador

As one of our newest farms, the Mera Ocotea Farm presents Young Living with a unique opportunity to establish our commitment to the planet. For starters, we'll plant 5,000 ocotea trees on the farm's 120 acres, which will help accelerate oxygen production. The farm will rely on the region's year-round rainfall and will use only non-GMO seeds that are cultivated through natural pollination. In time, wildlife corridors will surround the farm, creating vital links between habitats that protect and re-establish threatened populations.

OIL FROM THIS FARM: Ocotea

Highland Flats Tree Farm and Distillery

Naples, Idaho, USA

The Highland Flats Tree Farm and Distillery is home to beautiful conifer trees that produce essential oils reminiscent of the great outdoors. The farm has a registered monarch butterfly waystation habitat where migrating monarch butterflies can feed and rest during their travels between Canada and the Yucatan. The farm is also the first to replace its distillery's steam boiler with two steam generators, which produce steam on demand, improving efficiency while reducing waste. Keep an eye out for our Spring Planting and Winter Harvest events, so you can register to see the generators in action!

OILS FROM THIS FARM: Idaho Blue Spruce • White Fir • Idaho Grand Fir

Kalipay Coconut Farm

Polillo Island, Philippines

The Kalipay Coconut Farm is located in the lush, tropical landscape of the Philippines. Kalipay provides Young Living with our main source of coconut oil. We chose Kalipay because it shares our passion for giving back and supports communities by donating a portion of its profits every year to help fight generational poverty through education, leadership, and technology scholarship programs. The Kalipay Coconut Farm also uses green chemistry, a new discipline that focuses on the efficient use of resources and the elimination of waste during the production process.

PRODUCT FROM THIS FARM: Coconut oil

Bella Vista Farm

Reggio Calabria, Italy

The Bella Vista Farm is a third-generation farm and cold-press facility located outside the city of Reggio Calabria, Italy—a region that produces over 80 percent of the world's Bergamot essential oil! Founded in the early 1930s, the farm uses best practices to ensure the quality and purity of its Bergamot as it works to meet the demand for this popular citrus oil. The farm takes full advantage of southern Italy's sunny climate, using solar energy to power all its buildings during the off season.

OIL FROM THIS FARM: Bergamot

Ningxia Wolfberry Farm and Distillery

While traveling the world, Gary Young encountered the powerful wolfberry native to China's remote Ningxia region. This region hosts a diverse geography of forest mountains and hills, deserts, flood plains, and basins carved by the Yellow River. The significant irrigation from the river supports the production of wolfberries, wolfberry puree, and wolfberry seed oil. Gary knew the world needed access to this superfruit and partnered with the family-owned Ningxia Wolfberry Farm and Distillery as the provider for our popular NingXia Red line and other products.
